## 1. INTRODUCTION

This directory is intended for the use of healthcare professionals and provides details of the cancer Multidisciplinary Teams (MDTs) currently available at The Rotherham NHS Foundation Trust (TRFT). The directory also signposts guidelines and proformas for the urgent referral of patients with suspected cancer and will be updated on an annual basis.

### High Quality, Timely Cancer Care

The Rotherham NHS Foundation Trust prides itself on providing high quality cancer care to patients in a timely manner. The high quality and timeliness of our cancer services is evidenced by the Cancer Waiting Times achievement as well the North Trent Cancer Network Peer Review Reports. These can be viewed at

<http://www.performance.doh.gov.uk/cancerwaits/>

and

[http://www.cquins.nhs.uk/published\\_reviews.php](http://www.cquins.nhs.uk/published_reviews.php).

Consequently, you can be assured that patients you refer to the Trust with suspected cancer will receive the highest quality cancer care, quickly.

**Cancer Care Pathways are outlined in the Acute Oncology Guide and the 2WW Referral Performa's can be found on each speciality information page throughout this directory.**

AOS GUIDE JAN  
2014.pdf

### Choose and Book

Patients are booked into virtual Clinical Assessment Clinics (CAS) and are then telephoned by appointments staff who negotiate a convenient appointment with the patient. Since the booking you make into the CAS clinic on the Choose and Book system is only a **virtual** booking, please ensure that you do **not** give the letter generated by the Choose and Book system for this virtual appointment to the patient since we have had instances of patients not properly reading the letter and arriving very early in the morning for virtual clinic appointments that do not exist.

Cancer Referrals  
2013.pdf

### Amendments or Comments

If you have any amendments or further suggestions for inclusion in this Directory please contact:

Fax Number: 01709 427341

**The Macmillan Dynamic Case Management project** is piloting a Macmillan Cancer Liaison service, starting in Urology.

The service, which is based at Rotherham Community Health Centre, aims to provide continuity of care closer to home for people living with and beyond cancer. At the point of referral, the Macmillan Cancer Liaison Nurse will spend dedicated time with patients and their families from the point of diagnosis, supporting them to achieve their quality of life goals.

The Macmillan Cancer Liaison Nurse has access to a full directory of local support services and will work closely with people experiencing cancer to develop a personalised care plan, encouraging self-management wherever possible.

The Macmillan Cancer Liaison Nurse is normally available between Monday and Friday from 8.30 am to 4.30 pm.

### 3.1 BREAST DISEASE CLINICS AT THE ROTHERHAM NHS FOUNDATION TRUST

Referrals by fax to the breast secretary:

2 WW - Breast  
(7.2.11) FINAL.doc

**Combined Breast Clinic: Fax: 01709 424180  
Tel: 01709 427507/427369**

*Alternatively, please book the patient into the appropriate virtual CAS clinic via Choose and Book and attach the relevant electronic referral proforma which has been uploaded to your practice's computer system. All referral proformas must be attached to the virtual CAS booking within 24 hours of making the booking.*

Every patient referred to the Breast Service (whether suspicious cancer or not) will be seen within 2 weeks of the referral being received. The patient must therefore be ready and willing to be seen within this period.

### **3.10 BRAIN / CNS TUMOUR REFERRAL GUIDELINES**

Referrals for urgent suspected brain/CNS tumours should be made by Fax, using the appropriate Proforma attached as an appendix to this document to **Sheffield Teaching Hospitals NHS Trust** (Royal Hallamshire Hospital)

**Fax : 0114 226 8795**

2WW - Neuro (Jan  
11) FINAL.doc

AA - NEURO ONC  
MDT REFERRAL PROF

Patients will either be seen at Sheffield Teaching Hospitals or at The Rotherham NHS Foundation Trust in one of the following clinics:

#### **General Neurology Clinics:**

##### **Tuesday morning – Outpatient Reception A**

<i>Consultant</i>	<i>Secretarial</i>	<i>Telephone</i>	<i>Fax</i>
Dr S E Price		01709 424749	01709 427113

##### **Thursday afternoon – Outpatient Reception B**

<i>Consultant</i>	<i>Secretarial</i>	<i>Telephone</i>	<i>Fax</i>
Dr S E Price		01709 424749	01709 427113

#### **Neuro Rehabilitation**

Secretary: 01709 424611

#### **Cancer Tracker Mrs Lesley Burns**

#### **Metastatic Spinal Cord Compression (MSCC)**

Metastatic spinal cord compression is defined within the NICE guidelines (Dec 2008) as:

*“ Spinal cord or cauda equina compression by direct pressure and / or induction of vertebral collapse or instability by metastatic spread or direct extension of malignancy that threatens or causes neurological disability.”*

MSCC Incidence is quite rare- approximately 20 cases per annum in TRFT. Delay in diagnosis and treatment can lead to permanent paralysis. The faster the diagnosis and treatment the more chance the patient has of making a recovery. For advice please contact and refer to the Acute Oncology Guide for management

The patient's Oncologist /SpR via WPH switchboard (9 –5 Monday – Friday) 0114 2265000

- If new cancer diagnosis the on-call consultant oncologist at WPH 07949021449 or WPH switchboard (0114 2265000) (9 –5 Monday – Friday)
- On-call Clinical Oncology SpR via WPH switchboard
- Neurosurgical opinion can be obtained from the on-call SpR at Royal Hallamshire Hospital.

Microsoft Word -  
NTCN MSCC referral ;

### **3.11 CHILDREN'S & ADOLESCENT TUMOURS**

Referrals for urgent suspected children's and adolescent tumours should be made by Fax, using the appropriate proforma attached as an appendix to this document to **Sheffield Children's Hospitals NHS Trust** ***Fax: 0114 226 7874***

Sheffield Children's NHS Foundation Trust guarantees that all patients referred to this hospital with a suspicion of malignancy will receive an appointment to be seen within 14 days of the date of referral. This note is intended to give General Practitioners guidance on the procedures to be followed. All referrals made in this way are brought to an appropriate consultant on the day of arrival. The consultant will advise which clinic they should be seen in. In many cases these referrals are seen in a general paediatric medical or surgical clinic first within the time required of this system.

#### **Suspicion Of Cancer Referral Form**

This Trust uses a referral form specifically designed to provide clinicians with as much relevant information regarding the referral as possible. A copy of the referral form is attached as an appendix to this document. You are requested to complete the referral form as fully as possible, ensuring that the demographic details of the patient are correct and up to date. It is important to include a contact telephone number for the patient where possible. The completed form should be FAXED to the following telephone number: 0114 2267874

#### **What You Can Expect From Us**

You can expect us to take the following actions on receipt of a referral for suspected cancer:

- We will take the referral by hand to an appropriate cancer specialist.
- We will agree an appointment with the patient which will be within 14 days of the date of the decision to refer.
- We will contact the referring General Practitioner, by telephone, to advise him/her of the date of the appointment.

#### **DNA'S**

If a patient does not attend their first outpatient appointment (DNA), we will contact the patient to offer a new appointment which will be within 14 days of the date of the original appointment. We will contact the referring General Practitioner to advise him/her of the new appointment. If the patient subsequently DNA's the second appointment we will discharge the patient back to the care of the GP.

#### **Suspicion Of Cancer Referrals And Choose & Book**

We receive an average of less than 4 suspected cancer referrals each month in all specialties. This means that there is not a requirement, unlike most Trusts, to have specific 2 week wait cancer referral clinics or designated appointment slots on PAS. For this reason, GP's should **not** use Choose and Book for suspicion of cancer referrals.

The alternative method of referral is to refer directly to a consultant oncologist or haematologist by letter or fax. It is however, often helpful to discuss cases on the telephone to ensure they are seen in the appropriate clinic or outside a routine clinic if more urgent.

The consultant staff are-

Dr Mary Gerrard      Consultant Paediatric Oncologist      - Solid tumours (including lymphomas)

Prof Ajay Vora      Consultant Paediatric Haematologist - Leukaemia and Transplant

Dr Jenny Welch	Consultant Paediatric Haematologist - Leukaemia and Haemoglobinopathies/red cell disorders
Dr Jeanette Payne	Consultant Paediatric Haematologist - Leukaemia and Haemophilia/bleeding disorders and thrombosis
Dr Vicki Lee	Consultant Paediatric Oncologist - Brain tumours, Bone tumours, Retinoblastomas
Dr Anna Jenkins	Consultant Paediatric Oncologist - Late effects
Dr Dan Yeomanson	Locum Consultant Paediatric Oncologist covering maternity leave

You can access the consultant medical staff by telephoning **Sheffield Children's Hospital on 0114 271 7000** and requesting switch board to bleep the doctor you wish to speak to. In normal working hours the Consultant on call may direct you to a colleague who may be the most appropriate consultant for a direct referral. Out of working hours acute referrals are taken by the on call consultant.

## 8. PALLIATIVE CARE SERVICES

The Rotherham palliative care services are a specialist multi-professional team who endeavour to promote quality of life from the point of diagnosis through changing phases of illness. The team has specialist knowledge relating to the symptom management, psychological, social and spiritual needs and this may include a need for bereavement support.

The palliative care approach is promoted with all health care professionals acting as a resource and through educational programmes. The following all contribute to the Palliative Care MDT and the MDT meets every Thursday at 1pm at Rotherham Hospice.

### **The Rotherham Hospice**

The Rotherham Hospice is an independent charity and is situated on Broom Road overlooking Herringthorpe playing fields. It provides high quality palliative care for people (and their families) living with cancer and other life threatening illnesses.

Staff working in the hospice include a skilled team of doctors, nurses, occupational therapists, physiotherapists, social worker, health care support workers, volunteers, chaplains and many others. There are fourteen single room en-suite beds in the in-patient unit, which provide pain and symptom control and end of life care.

To refer a patient to the inpatient unit you can call 01709 308905.

Single Point of  
Referral Form ( final

Referral form. Fax 01709 820413

**Day Hospice**-The day Hospice is open Monday to Friday 10am to 3pm

Patients are referred to the Day Hospice for the management of physical, psychological and social problems in relation to their diagnosis and also to give carers a break.

## 9.2 The Rotherham NHS Foundation Trust's Chemotherapy Services

Chemotherapy at Rotherham NHS Foundation Trust is administered on Ward A7.

### 1. Day Unit Ward A7 (Tel 01709 424231)

Patients under the care of a Consultant Oncologist at the Cancer Centre, Weston Park Hospital in Sheffield have the opportunity to receive Outreach Chemotherapy.

Locally this is provided in dedicated facilities on the Day Unit Ward A7, which is open Monday to Friday 08.30 until 16.30 hrs. As patients receiving Outreach Chemotherapy are under the care of a Consultant Oncologist based at Weston Park Hospital they are encouraged to contact the Cancer Centre directly for advice on the following telephone number-

**TELEPHONE NUMBER: 0114 2265000**

### 2. Ward A7 Haematology Ward/Day Care Unit

Haematology Chemotherapy is administered on an Inpatient and Outpatient basis within the Haematology Unit. Inpatient Haematology Chemotherapy is administered on Ward A7, whilst Outpatient Haematology Chemotherapy is administered in the Day Care Unit based on Ward A7 (Tel 01709 424231).

There is a 24 hour advice line for Haematology patients receiving Chemotherapy as outlined in the following Table:

#### **24 Hour Telephone Advice Service for Haematology Patients receiving Chemotherapy**

Patients are given a relevant fact-sheet relating to their specific needs, which state the open access to the hospital referral system we operate on A7. The fact-sheet advises the patient to contact Ward A7 on the following telephone number at any time day or night, seven days a week for any concerns or problems they may be experiencing. The Haematology Nurse Specialists are available Monday – Friday 09:00- 17:00 for advice and support.

**TELEPHONE: 01709 426532/424075**

Chemotherapy Oncology based at TRFT - Sister Kate Lambert  
Tel: 01709 427085

## 10. RADIOTHERAPY SERVICES

The Radiotherapy Department at Weston Park Hospital (part of Sheffield Teaching Hospitals NHS Foundation Trust) has seven linear accelerators, superficial and orthovoltage units. All linear accelerators have MLCs and portal imaging. IMRT is also carried out in the department. There is Virtual and Conventional Simulation available.

Stereotactic Radiosurgery is provided by a unit attached to the department which treats a small number of malignant cases each year. Patients are referred via the neurosurgeons.

There is a low dose rate selectron unit for gynaecological cancers situated in an extension off ward 2. Radioisotopes are also used in the hospital for both diagnostic and therapeutic purposes.

There is also a Medical Physics Department which provide the treatment planning for the patient and machine maintenance. The physicists of this department are responsible for calibration of the treatment units and checking both machines and calculations. The Impression Suite provides support to the department by producing accessories to aid patient treatment e.g. immobilisation devices.

### **Clinical Director, Radiation Services**

A consultant clinical oncologist who has clinical responsibility for the other oncologists working in radiotherapy, the radiotherapy department, and medical physics department.

Dr Simon Pledge

### **Deputy Head of Radiotherapy Physics**

Chris Bragg

Tel: 0114 2265174

## 11. Clinical Health Psychology Services

Access to clinical psychology assessment and intervention is available for Rotherham NHS Foundation Trust Patients aged between 16-65 only. There is one Clinical Psychologist, Dr. Andrew Thompson, providing a clinic one day per week. Occasionally there will also be Clinical Psychologists in Training providing clinics.

Referrals should be concerned with either assessments to assist in MDT treatment planning (for example in connection with considering the merits of further surgery), or be concerned with the need for an intervention to facilitate adjustment (for example assisting in managing body image distress or fear of recurrence). Referrals that relate to pre-existing mental health conditions should be directed to adult mental health services. Palliative referrals should be directed to the palliative team and pain management should be directed to the pain management team.

Referrals should be made in writing and sent to:

Dr. Andrew Thompson  
Registered Clinical & Health Psychologist  
Reader in Clinical Psychology  
The Park Rehabilitation Centre  
Badsley Moor Lane  
Rotherham  
S65 2QL

Patients will then be sent an opt-in form and on returning this they will be placed on the waiting list to be seen. In the case of urgent assessments patients will be offered an appointment directly upon receipt of the referral.

Dr. Andrew Thompson can be contacted on 01709 302323 on a Wednesday.
