

Welcome to Health Information...

Background

'Health Information' is designed to provide patients and visitors to Rotherham Foundation Trust Hospital with information to help them make informed choices about their health and live healthier lives. Our location just inside the main entrance means most visitors to the hospital walk past us and we offer a welcoming space to browse the information on display or talk to staff who can answer health enquiries in more detail.

We offer display space for health related organisations to promote their campaigns and interact with our patients, visitors and staff. Hospital departments and clinics are also invited to promote their health & wellbeing information during national awareness weeks.

Where is it?

Health Information is situated in the main entrance of Rotherham Hospital. It is on the right hand side, opposite the Welcome desk and Outpatients corridor.

Who can use it?

Health Information can be used by anyone who has a health campaign to promote to our patients, visitors and staff. For example – local health support groups, hospital departments and voluntary organisations whose work has an impact on health.

The sale of merchandise or fundraising activities in Health Information is not encouraged. In some cases, it may be possible, but only with the prior agreement of Rotherham Hospital Charity and if they are based on a partnership arrangement.

How do I book the space?

Bookings can be made at any time; however we would appreciate it if you could book a week beforehand. We operate during normal business hours Monday to Friday.
