Covid-19 Objectives

1. Every patient is able to access the clinically appropriate level of care
2. Patients with urgent life-threatening non-Covid illness will receive the care they need
3. Staff will be protected against the risk of acquiring Covid-19 in the workplace through the use of nationally specified PPE
4. Staff will be supported with the psychological consequences of working through them pandemic
5. We will make timely decisions, support each other and where appropriate, embrace new ways of working that may have value beyond the pandemic
6. We will support our local health and social care partners in their responses

Objectives

Whilst Covid-19 will be the key focus for the next year, there are a number of goals which we want to deliver this year:

- Mortality
  - Ensure we see a significant reduction in mortality rates

- Operational Performance
  - Comply with national requirements around operational standards

- Workforce
  - Increase the substantive establishment of staff

- Financial Stewardship
  - Deliver our plan and ensure improved financial stewardship across the Trust

Priorities

On top of our high-level objectives, there are a small number of key priorities for the Trust over the next 12 months

- Optimise patient flow through the organisation
- Transform our outpatient offering
- Improve staff engagement and morale
- Maximise the effectiveness of our leaders
- Drive increased recruitment and retention
- Complete our estates moves at RCHC and Greenoaks
- Implement a joint Gastroenterology service with the Barnsley Hospital NHS Foundation Trust
